

# First Onsite<sup>SM</sup>

Presented by the Personnel Cabinet, Department of Employee Insurance

## Healthcare the Way You Need It. **Here and Now.**

Kentucky state employees can have their routine health needs met in the workplace at one of our four First Onsite clinics.

### What you can expect...

**Expert care** from a board-certified nurse practitioner – a registered nurse with advanced training in diagnosing and treating common illnesses and medical problems (allergies, ear infections, strep throat, minor infections and rashes, etc). Blood pressure checks and allergy injections will be provided at no charge to all state employees.

**All services provided in complete confidence.** No one else will have access to your treatment record unless you agree in writing.

**Convenience and comfort.** Appointments are preferred, but walk-ins are taken on a first-come, first-served basis.
